Education

Degree/Certificate	Institute/Board	CPI/Percentage	Year
B.Sc. (Hons.) in DSAI	Indian Institute of Technology Guwahati	7.57	2024-2028
Senior Secondary (Class XII)	Assam Higher Secondary Education Council	82%	2023
Secondary (Class X)	Board of Secondary Education, Assam	94%	2021

Projects

- **Spotify Artist & Song Intelligence – Smoothyfy** Completed
  Python, Pandas, NumPy, Scikit-learn, Plotly, Streamlit GitHub
  – Developed an interactive music intelligence dashboard for artist and song analysis using a Spotify dataset sourced from Kaggle.
  – Implemented Random Forest popularity prediction and K-Means clustering on audio features to identify music patterns.
- **Nykaa Product Success Prediction** Completed
  Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn GitHub
  – Performed data preprocessing, EDA and visualization on a Kaggle Nykaa product dataset.
  – Built and evaluated ML models to predict product success from pricing, discount and product attributes.
- **Movie Recommendation System – BingeFlix** Completed
  Python, NumPy, Pandas, Scikit-learn, Streamlit, TMDB API GitHub
  – Built a content-based movie recommendation system using feature vectorization and cosine similarity.
  – Integrated the TMDB API with Streamlit to display movie posters, ratings, genres and personalized recommendations.
- **Olympic Data Analysis** Completed
  Python, Pandas, NumPy, Matplotlib, Seaborn, Plotly, SciPy, Streamlit GitHub
  – Analyzed Summer Olympics data to extract insights on medal tallies, countries, athletes and performance trends.
  – Built an interactive Streamlit dashboard with country-wise analysis, top performers and data visualizations.

Ongoing Projects

- **Energy Consumption Anomaly Intelligence & Forecasting** Ongoing
  Python, Pandas, NumPy, SciPy, Scikit-learn, Plotly, Streamlit
  – Analyzing electricity consumption time-series data to identify abnormal usage patterns, seasonal trends and demand spikes.
  – Developing an interactive Streamlit dashboard for anomaly detection, consumption forecasting and visualization of energy demand patterns.

Technical Skills

- **Programming Languages**: Python, R, SQL, C, Java (Familiar)
- **Data Science & Machine Learning**: Pandas, NumPy, SciPy, Scikit-learn
- **Data Visualization**: Matplotlib, Seaborn, Plotly
- **Tools & Deployment**: Streamlit, Jupyter, Google Colab, Git, GitHub, LaTeX (Overleaf)
- **Other**: Microsoft Excel (Basic), Power BI (Basic)

Key Courses Taken

- **Data Science**: Data Analysis Basics, Data Mining & Warehousing, Data Modeling & Visualization
- **Mathematics & Statistics**: Linear Algebra, Introduction to Statistics, Statistical Inference
- **Computing**: Python Programming, Data Structures, Algorithm Design & Analysis, Relational Database Management Systems
- **AI/ML**: AI Basics, Machine Learning Fundamentals, Time Series Analysis & Forecasting, Recommender Systems

Certifications

- **Machine Learning**: Machine Learning with Python – Cognitive AI; Machine Learning – IIT Guwahati × Coursera
- **Data Science**: Data Science with Python – Cognitive AI; Data Literacy – IBM
- **Generative AI**: Generative AI – Google

Achievements

- **Academic**, Dr. Banikanta Kakati Award – Higher Secondary academic achievement under Pragyan Bharati Science, Government of Assam
- **Dance**, National Level, Grade A

Language Proficiency

- **Languages**: English, Hindi, Assamese
